About our program

Junior Academy

Ages 18 months through 5 years. This program will raise your child's confidence level by encouraging them to go beyond their expectations and perceived limitations. Your child will be introduced to beginning gymnastics skills along with incorporating motor development and hand-eye coordination. Classes are 50 minutes in length. 18 mo -3 years is a parent participation class.

Girls and Boys Academy

Our program was developed following the guidelines of the USAG program. We now have two levels within the original beginning, intermediate and advanced classes. When students move within the level, they receive a color bracelet corresponding to the level achieved, but they will not need to change classes. When moving from one level to the next, a student must be tested by a certified tester.

Tumbling classes

Ages 10 years and up. This program is designed to teach tumbling skills using our trampoline, mini-trampoline, foam pit and spring floor. They will also participate in strength, conditioning and flexibility, which is needed to perform the more advanced skills safely. Our coaches will individualize with each child to help them achieve their goals.
